AEC Studios (current)

John Crockett

Denver, CO

Special Skills

Editor for my own dance videos. Experienced with editing green screen footage as well as sfx and vfx. Program I am most familiar with is adobe premier pro. I enjoy color grading in premier pro the most, portraying different moods for film can change the perspective.

Videographer for my own videos if I have no assistance. I use the DJI Osmo Pocket for 4k footage shooting in 60 fps. The steady gimbal helps track movement smoothly for dancing.

Professional Choreographer for the past 9 years. I have had the opportunity to teach for film & television. As well as teaching at local studios.

Dance performing experience I have is in hip hop, ballet, modern, contemporary, and house. I've explored the skill of partnering dance in all these forms including salsa/bachata. Currently at the beginner stage of learning bachata.

Stunts: currently taking beginner classes that I started this past summer of 2021. Has been helping evolve the way my body can move as a dancer.
